

Powerb@se On Demand

Our resources on demand services let you pay for the resources (ie. Storage, CPU & bandwidth) you use without having to make a long-term capital investment and also give you maximum flexibility, which dramatically drop your total cost of ownership. We at PCCW have chosen the best-of-breed set of technology and solution to make available those quality services to our customer at minimal investment, short provisioning lead-time, flexible term, while backed by team of experienced and talented professionals.
